#### SAGEBRUSH STATE

Brief Items Culled From Exchanges  
From the Four Corners of  
Nevada.

Quite a number of Italian ranchers resident in Dayton and vicinity have been taking out naturalization papers of late.

Rev. Eddie of the Episcopal Church at Carson has been offered the dean-ship of the Episcopal Cathedral at Salt Lake, which has a membership of 300 communicants.

The ranchers in Lovelock valley are afraid that they will not have water enough for irrigation this summer. We would suggest that they pray as the ranchers of California did last year, and perhaps they will have enough to last them several summers.

A. R. Holcombe has charge of the Copper Basin mines in Lander county, and has put men to work.

I. W. Hawkins has sold to the Nevada & New England M. Co., a group of mining claims near the Homestead, for \$20,000.

News of Nevada's Leading Industry  
Clipped From Sagebrush  
Exchanges.

The Dexter has shipped a consignment of gold bullion and cyanides of the aggregate value of \$4,800, the result of a fortnight's run of the mill.

A chute is to be built at the O. & C. ore house to facilitate the handling of the low-grade ore to the Kinkadee mill.

A cyanide plant of 150 tons capacity is to be put in at the Horseshoe mine.

A carload of ore from Copper Canyon consigned to A. R. Holcomb, reached the Glasgow Co.'s works late last week. This week it is being treated. Judging from the appearance of the consignment good returns in copper values should follow its reduction.

No more Con. California & Virginia averaging in the mine car sample assays below \$25 per ton, is to be sent to the Morgan mill for reduction, and in future all ore assaying under that value will be worked at the Kinkadee mill, Virginia City.

SENATOR CHANDLER AND THE GOLD STANDARD.

There is a hope that if a tree die it will sprout again. There is not anything in nature that does not seek to accomplish its destiny. Life is a continuation from its beginning, and it is so true to the law there is upon it that it continues to assert the principle of life when the means that foster it has passed to the opposite side of nature. The Republican party flourished like a green bay tree in its early history. It was as a loadstone attracting the better principles there are in the nature of man to itself. Its drawing power was phenomenal. Its mission was to relieve the bondman by breaking the bands of slavery. When freedom to the slave was accomplished the work that gave it an existence was closed and it was out of a job, but the old aphorism prevailed. The devil provided work for idle hands to do. Its aversion to the word Democrat that it had been taught to hate furnished the adhesive property that kept it together, which property of hate continues active and is likely to become the means of enslaving the human family. In this organization of hate that seems to entertain very little of anything but bad will to man and is dead to all the better principles in our nature gives forth in dry places signs of life in the good there is in us. These signs of life come sometimes from an looked for sources to the surprise of those who love all men. Yet the surprise betrays a hope that the gospel of hate is not the only gospel there is upon the earth. When the gold bill in the Senate was up for discussion and the opposition to the bill had the floor Mr. Oandler, Senator from New Hampshire, said:

"I want the double standard. So do 1,300,000,000 of the people of this world of ours, while only 200,000,000 want the single gold standard. We want the ten money of the world to be \$5,000,000,000 in coin; they want it to be only \$4,000,000,000. The difference means injustice, injury, suffering and distress to millions of God's poor people the world over, while the gold class is to wax fat at the cost of their helpless victims."

The Republican party ought not to direct any such grievous wrong. I treat its leaders not to burden us with gold monometallism, but to renew its unmistakable language our oft-repeated pledge to remonetize silver.

We take the above extract from the San Francisco Examiner. When the speech is received in full by the JOURNAL we will make a more extended review of the reasons given by the Senator for his opposition to the bill. The Senator estimates the number of those who favor the single standard at 200,000,000, which is many more than there are who favor this crowning equity. Were party lines broken in the United States there are not one million people in the country who will favor the single standard. The Senator became bold and delivered his argument with emphasis, as all men do who know they are right when making an attack upon a public wrong. For the purpose of confirming that which we attribute to the Senator when making his argument, we make an additional extract as follows:

"The passage of the bill without adequate recognition of the desire and determination of the American people that silver shall be remonetized is a defiance of the Republican platform of 1896, and without such recognition in the bill, I cannot give it my vote. It will be unequalled gold monometallism, and to advocate or submit to this is an abandonment of Republican principles."

"Any retarding of the movement to make gold more valuable does not suit the gold class."

New Hampshire is the native State of Daniel Webster, and we conclude from the position of Senator Chandler on the single standard question that the State contains soil upon which brains grow. Mr. Chandler has been chased among ring Republicans, and should it be that he was correctly assigned it is a foregone conclusion that he knows the proper time and place to get out of the ring, as he is clearly in opposition to the scheme of all ring schemes on the money question.

The gentleman has been directing attention to the proceedings of the ring in an off-hand way since September last, and he now comes with a clincher that closes any controversy or doubt about his honesty regarding the rights of the people against the money power ring that is running McKinley and his administration.

The people in the east are becoming alive to the autocratic work of the money power autocracy, which controls and directs the Republican party, whose work, as directed by the gold ring, will destroy liberty and enslave mankind. The principle upon which the enslaving will be carried forward to a consummation was stated by Senator Chandler when he said the purpose of the gold power is to reduce the final redemption medium of the world to \$4,000,000,000.

It is one of the most astonishing outgrowths of party and political blindness that has occurred in history, that an intelligent people should deliberately deprive themselves of all the rights that God and their ancestors have given them at the bidding of a ring whose purpose, and only purpose, is to enslave them through the means of the gold standard, by reducing the final redemption money of the world to the part they control and own.

The Court Refuses to Appoint.

The JOURNAL is informed that a party against whom an indictment was found by the late grand jury requested the court to appoint E. E. Copeland an attorney of the court to defend him, and the court declined to do so, which is unusual in such matters. There should be some cause for such procedure.

We hope there is some sufficient grounds for the course pursued toward the attorney.

Postoffice Items.

Reno is not the only place in the Union where the sale of stamps is increasing. Postmaster Kraus informs us that in the past ten years the sale of stamps throughout the United States has increased 94 per cent.

A Very Foxy Fox.

A gentleman whose word cannot be doubted and who is not easily deceived tells the following:

Very early one morning he saw a fox eying most lustfully a number of wild ducks feeding in the dusky end of a highland lake. After awhile the fox, going to windward of the ducks, put affront to the lake several bunches of dead rushes or grass, which floated down among the ducks without causing the least alarm.

After watching the effect of his preliminary fleet for a short time the fox, taking a good sized mouthful of grass in his jaws, launched himself into the water as quietly as possible, having nothing but the tips of his ears and nose above water.

In this way he drifted down among the ducks and caught a fine mallard.

Though this story seems extraordinary, it must be remembered that the fox manages to capture wild ducks, wild pigeons, hares and numberless other animals, sufficient to keep himself and family, and it is plain to be seen that in doing so he must practice many a trick that would seem improbable if related and quite beyond the instinct of animals—Omaha World.

Hard Straits at the Diamond Mines—Another Battle Imminent.

Special to the JOURNAL.

LONDON, February 13, 4:20 A. M.—Lord Roberts has gathered 35,000 men, with whom he intends to turn the left flank of the Boer lines at Magersfontein, near Jacobsaal, entering into the Free State and compelling General Cronje to raise the siege of Kimberly and thus making the first step toward Bloombfontein.

Lord Roberts has informed correspondents that when he gets down to business they will have ample time to send news.

Kimberly, twenty miles from Modder river position, is in sore straits. In December, out of a population of 14,000 whites and 19,000 blacks, the mortality was 50 whites and 138 blacks per thousand. The infantile death rate was 671 per thousand among the whites and 912 among the blacks.

The fearful state of things in December cannot have improved much, if at all, since and the fighting power of the garrison must be greatly diminished. The bombardment has increased and there is danger of the great diamond city and Cecil Rhodes falling under the very eyes of Lord Roberts.

It is believed that Roberts will move at once and that a great battle is imminent.

If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effective. TENTHousand  
DOLLAR SUIT  
Answer and Demurrer to Amended Complaint Filed by Defendant Yesterday.

The curtain rose yesterday on another scene in farce-comedy being enacted in the court house, wherein Lester Williams is posing as the bare villain and Captain W. F. Mills is filling the role of a wronged and virtuous hero.  
Some days ago the hero, in the form of an amended complaint, charged the villain with having been author of what some time ago appeared in the JOURNAL over the signature of a reporter, thus making out the aforesaid reporter to be a liar, or else that the villain committed a forgery.  
The villain still pursues him. Yesterday he filed an answer and demurrer in which he avers that there were not sufficient causes of action named in the amended complaint and that a lot of other things were wrong with it.  
"Wherefore defendant prays that the case be dismissed and that he have judgment against plaintiff herein for costs of suit."

HAMMERSMITH  
SENTENCED

Will Hammersmith must pay the penalty for his crime. For the next half decade his horizon will be bounded by prison walls.  
The courtroom was filled with spectators last evening when the case against him was called.  
Hammersmith testified in his own behalf, describing in detail the method pursued in the burglary. He then pleaded guilty. Time for sentence was waived.  
"Mr. Hammersmith, stand up."  
The court, with mien as solemn as though it were about to pronounce the sentence of death, addressed the prisoner. After reviewing the case and speaking tenderly of the shame and sorrow stricken family or the young man, it concluded with: "The sentence of the court is that you be confined in the Nevada State prison for a term of five years."  
Sheriff McInnis says he will probably convey his prisoner to the penitentiary to day.

**Another Mine Bonded.**  
The only matter of moment that occurred in the local mining world yesterday was the bonding of the Copper Queen and Mizpah claims near town.  
A provisional bond was placed on them some weeks ago, which yesterday was changed to a working bond. The amount is \$15,000, of which \$2,000 was paid down yesterday to the locators. Onas, Wallace is the bondor. The bondors are D. W. Catts, C. A. Norcross, J. A. Pothoff and J. H. Brown.

What Reno People Say  
About a Fire Alarm  
Outfit.

The bankers of Reno were approached yesterday on the fire alarm question. All those that were seen were free to express opinions, with the exception of Mr. Sheline. Naturally he declined to be interviewed, as it would be bad taste for one who is to sit in judgment in the matter to previously express his sentiments.  
Mr. Fletcher, in his capacity as Fire Commissioner, had been interviewed Saturday, so he was passed.  
F. M. LEE—I most certainly favor the installing of a first-class telegraph fire alarm system. It should be purchased outright. One or two systems that I might name are recognized by

the insurance companies. If such a system were acquired it would undoubtedly result in a reduction of rates.  
O. T. BENDER—Yes, I favor purchasing a fire alarm system, providing that the price is not unreasonable. The commissioners should find out what system is in use in other cities of this class in California and elsewhere and, if the apparatus is found to give satisfaction, it should be the one that is acquired.  
R. S. OSBORNE—The efficiency of our fire department is a matter of concern to all citizens. A good alarm system is a prime necessity. A few minutes delay in sending in an alarm is often resultant in heavy loss that might otherwise have been prevented. If we buy a system we should get the best. I do not think that there would be any immediate reduction in insurance rates, the result of installing a system, because the companies recently made a considerable cut, but undoubtedly in time the reduction would be made if the system installed proved efficient.

No marvel that your country is proud of this proud child of here, who in all lands has sung her dawning glory and his own changeless loyalty to her."

GEO. W. AYERS**  
For a number of years there have been several harness makers claiming to be saddlers in Washoe county. There has not been a practical saddler at the head of any of them. They have carried a stock of fair appearance high price and cheap quality. When you gave them a difficult order they were forced to send it away to have filled. In the future I invite you to place a trial order with me. I do not believe in self praise, but will let my reputation as a saddler depend on your judgment after inspecting my work. As to experience I have been employed in all the leading saddleries of the United States. I WILL GUARANTEE ALL WORK ENTRUSTED TO ME AT PRICES TEN PER CENT LOWER THAN THOSE WHO CLAIM TO BE COMPETITORS. I have no equals in saddle work in Washoe county. I will place a forfeit that my cowboy outfits or vaquero saddles cannot be duplicated in the State of Nevada. Yours for friendship and trade,

**LETTER FROM WASHINGTON**  
An Old Correspondent Writes to the "Journal" from the North.  
EDITOR JOURNAL:—It is so long since I wrote a line to your paper that I feel shame at recommending correspondence, but I feel certain you will overlook the negligence. You have so kindly sent the paper, without money or price that I feel it a duty incumbent on me, to forget for the time being that I have passed my four-score natal anniversary and again attempt a short communication. We all like to read what is going on in the good old State, and hence fully appreciate your kindness in continuing your new journal. Seattle may well be called the "Queen city of the great Northwest." It is so rapidly growing that person residing in what was a year or two ago termed the outskirts, can almost fancy the business portion moving toward them. Four, five and even seven story buildings are built, and more in process of construction, and as to dwelling houses, it would take columns of a paper to describe their number or beauty.  
Enough about that, for to continue further, I might be charged with "drawing the long bow," which few could be found to believe one capable. One thing is certain, that Seattle must be a great city for it has every facility to make it so.  
The rush to the Klondike mines was very heavy last year, and many have realized large fortunes by the venture, and many a man who left home with out sufficient means to carry him to the frozen north, returned a semi-millionaire, and is now living in luxury. The Nome mining region is, as you are aware, promising to be the most wonderful discovery of the age, and next spring there will be a vast emigration thereto from every part of the civilized earth. "Big," you may say, but surely true.  
Well, now as to dear old Nevada. Much pleased are the old sagebrush dwellers to learn of so much mining interest and all hope for a return of prosperous old times in dear Nevada. You have doubtless heard that George M. Stewart, "Snowflake George," is now postmaster of this great city. The office is a lucrative one, and the salary added to his large business income, is fast making him a wealthy man. He has just built him an \$8,000 residence and, as he says, is all right.  
Sol Simpson, who all old time Carson and Reno people remember, is now considered a millionaire and highly respected.  
Bob Lindsay and Sam King seem to do well in their law practice, but there are so many of the calling that but few seem to acquire great wealth.  
Well, I think I have written enough for this time, but will, if anything of interest occurs, endeavor to punish you with another letter.  
Kind regards to old friends, and wishing you great prosperity,  
Yours as ever,  
DEACON,  
Seattle, Wash., Feb. 10, 1900.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. J. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her frightful case of stomach trouble and yellow jaundice. It is positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50 cents at S. J. Hodgkinson drug store.
